

AMRAD Medical

High Frequency Generators

AMRAD Medical S Series

Radiographic generators with proven reliability and performance for DR applications

5 different models:

320S 400S 500S 650S 800S

- Constant Potential Generator maximizes image quality and consistency
- Anatomical Programming with six selectable patient sizes ensures flexibility in choosing the right techniques for your patient exam
- Dual Speed Starter maximizes tube output
- Integrated service tools with comprehensive error logs enhances service capability and minimizes service time
- UL/CE/FDA Listed

5-Year Parts Warranty when part of a complete system
